FOUNDER

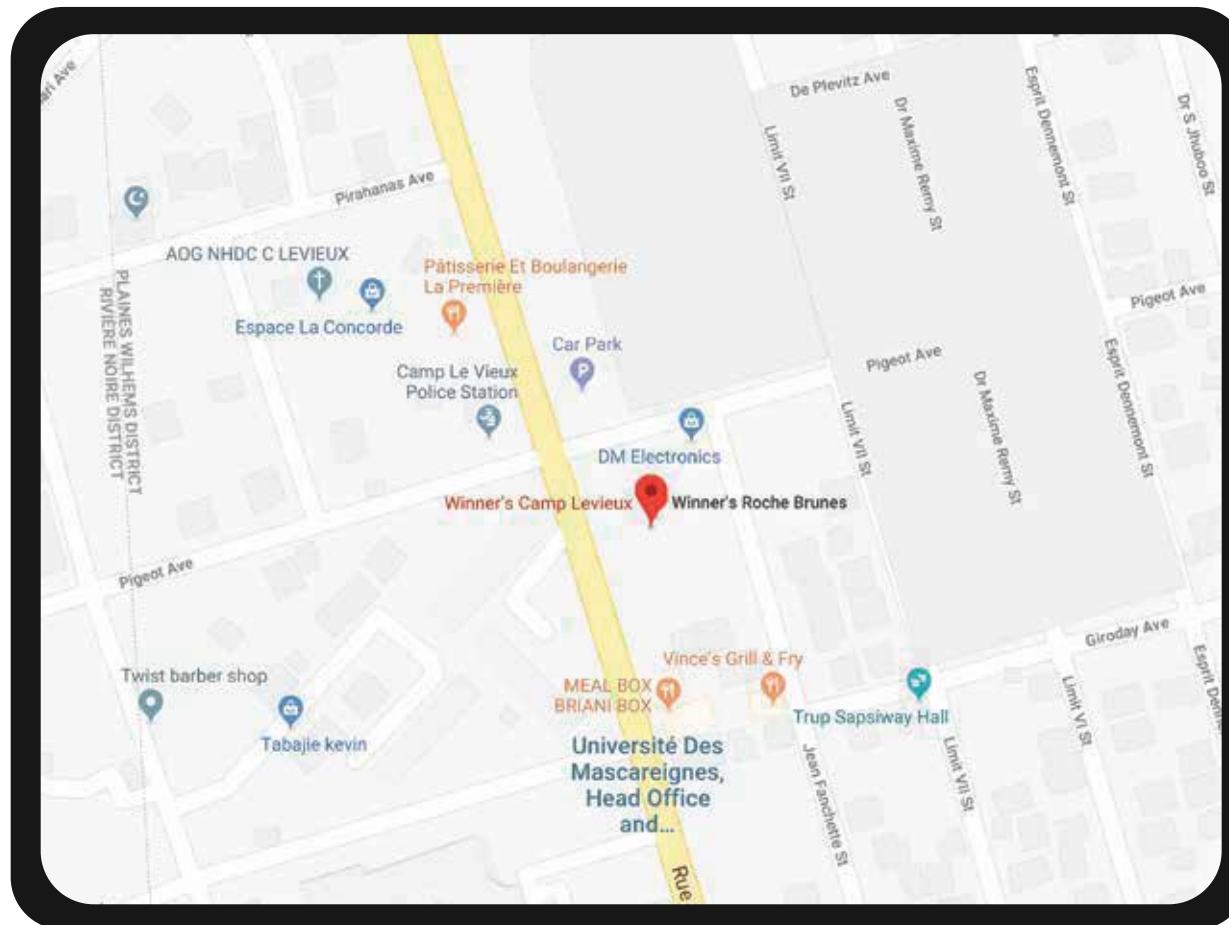

Andrew Rock

It's his name, and it could not have been better. One day, Andrew dreamt it, the other he made it. He had a passion about wood and metal. Some might say that it was his youth ardour, but that guy had a vision.

He learnt it the hard way, slowly but surely Andrew grabbed all the strings of the craft and started to recruit and expand his business. He also invested massively in state-of-the-Art equipment and machinery to ensure rapid execution.

Rockwood Design, helps to think, design and create unique spaces through its craftsmanship and versatility. We have the skilled manpower, we have the equipment and tools, and we have the passion. Solid as a rock, our team thrives to deliver the best, within deadlines and budget.
